BITCON 2017

Research Challenges in Science, Technology & Management for National Development

BHILAI INSTITUTE OF TECHNOLOGY, DURG (C.G.)

(SETH BALKRISHAN MEMORIAL)

NATIONAL CONFERENCE
ON

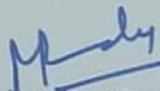

Research Challenges in Environmental Chemistry for National Development.

Certificate

This is to certify that [✓]Dr./Mr./Mrs./Ms. NEENA RAI of G. E. C. BILASPUR has participated/[✓]presented a research paper entitled "FATE OF ANTIBIOTICS - - - - AN ANALYTICAL STUDY." in the conference, on 28th March 2017, organised by Department of Applied Chemistry, Bhilai Institute of Technology, Durg.

Dr. Arun Arora
Principal

Dr. Santosh K. Sar
Research Co-ordinator

Dr. Madhurima Pandey
Convener

BITCON 2018

Frontiers in Science, Technology &
Management for National Development

BHILAI INSTITUTE OF TECHNOLOGY, DURG

(Seth Balkrishan Memorial)

Accredited with 'A' Grade by NAAC

NATIONAL CONFERENCE

ON

Research Frontiers in Environmental Chemistry

Certificate

BIT/2018/AC-BITCON/APP-CHEM./19

This is to certify that Dr. / Mr. / Mrs. / Ms. NEENA RAI of

CHOUKSEY ENGG. COLLEGE (BILASPUR) has participated / presented a research paper entitled

A Review on Pesticide Contamination in Environment

in the conference, on **15th February 2018** organised by **Department of Chemistry**, Bhilai Institute of Technology,
Durg.

Dr. Arun Arora
Principal

Dr. M.V. Padmavati
Dean (R&D)

Dr. Madhurima Pandey
Convener

(ISWEEFSG-18)

International Symposia

On

WATER, ENERGY AND ENVIRONMENT FOR SUSTAINABLE DEVELOPMENT GOALS

25th & 26th September 2018

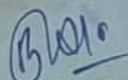

Organized by : **The Institute of Science & Technology**
DR. C.V. RAMAN UNIVERSITY

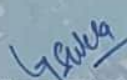

CERTIFICATE

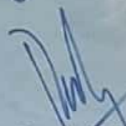

This is to Certify that Prof./Dr./Mr./Ms. Neena Rai (Asst. Prof.) of Guru Phasidas Vishwavidyalaya
A Central University, Bilaspur
has delivered an Invited Talk/Chaired the Technical Session/Presented the Paper (Oral/Poster)/ Participated in the **International**
Symposia on "Water, Energy and Environment for Sustainable Development Goals" organized by **The Institute of Science & Technology**,

Dr. C. V. Raman University, Kargi Road Kota, Bilaspur, C.G. India. His/ Her presentation topic was

Biosorption of Heavy Metals:
A Brief Review

Dr. Manish Upadhyay
Convener

Mr. Gaurav Shukla
Registrar

Dr. R. P. Dubey
Vice Chancellor

Abstract: Agricultural improvement keeps on remaining the main objective of Indian planning and policy. During the time spent headway of agribusiness, pesticides have become a critical gadget as a plant insurance expert for boosting food creation. Further, pesticides expect a basic occupation by keeping various horrifying diseases. Nevertheless, prologue to pesticides both occupationally and environmentally causes an extent of human clinical issues. It has been seen that the pesticides openings are dynamically associated with immune suppression, chemical disturbance, decreased knowledge, conceptive varieties from the standard and dangerous development. At this moment, India is the greatest producer of pesticides in Asia and positions twelfth on the planet for the usage of pesticides. A bigger piece of the general population in India is busy with agribusiness and is as such introduced to the pesticides used in cultivating. Yet Indian typical utilization of pesticide is far lower than various other made economies, the issue of pesticide develop is high in India. Pesticide develop in a couple of harvests has also impacted the admission of agricultural products over the latest couple of years. In this particular circumstance, pesticide security, rule of pesticide use, authentic application advances, and consolidated aggravation the chiefs are a segment of the critical techniques for restricting human introduction to pesticides. There is a deficiency of studies related to these issues in India. Along these lines, the purpose of this endeavour was to think about the environmental impact of pesticides.

Keywords: Pesticides, Environment, Benefits of pesticides, Environmental hazards, Types of Pesticide

Introduction:

Pesticides are chemical compounds that are used to kill pests, including insects, rodents, fungi and unwanted plants. Pesticides are used in public health to kill vectors of disease, such as mosquitoes, and in agriculture, to kill pests that damage crops. Pesticides are substances intended to prevent, destroy, repel, or mitigate
